

# UNMATCHED PULLING POWER AND LOAD CONTROL ON ALL WILDCAT OILFIELD PLANETARY GEAR WINCHES

**130K WINCH**

**100K WINCH**

**80K WINCH**

**60K WINCH**

**50K WINCH**

Designed for demanding applications, the Wildcat offers a broad range of pulling power perfect for winch trucks, frac trucks, drilling rigs, cementing vehicles, geophysical explorations and more. Add to that Ramsey's reputation for reliability and it's easy to see why a Wildcat should be your next winch.

**Each Wildcat Winch comes with these features:**

- One piece spline clutch
- 2 speed gear motor
- From 50,000 lbs. to 130,000 lbs. 1st layer line pull
- Meets SAE J706
- Highly efficient planetary gear set
- Oilfield proven free spool clutch
- Spring applied hydraulic released brake for superior load control
- Symmetrical design offers stream line mounting and ease of operation
- Air actuated band brake with clutch indicator switch
